

OVATIO LUBRICANT

SAFETY AND RELIABILITY FOR YOUR PROCESS

Your heavy-duty hose pump needs heavy-duty lubricants to operate with the best possible efficiency and reliability.

The glycerin-based lubricant is formulated for highly active lubricating and cooling properties and ensures optimum hose life. As an H1 lubricant with NSF® registration, OVATIO can be used in food applications.

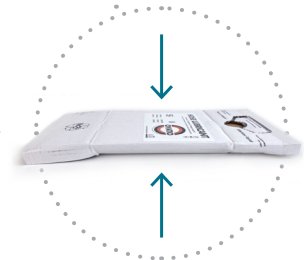

- ✓ Advanced formulation for superior lubricating and cooling properties
- ✓ Suitable for food applications with NSF® registration
- ✓ Sustainable packaging: 60% less plastic, up to 30% less CO₂ emissions during transport¹⁾
- ✓ Easy filling due to grip tabs on all sides
