

METERING PUMPS

**Declaration
of Compliance with Regulation
(EC) No 1935/2004 (FCM)**

OBL pumps for the food & beverage sector

OBL pumps are quality-certified for use in the food & beverage industry.

This means that...

they do not release contaminants and are the product of a certified supply chain, guaranteeing the complete traceability of all the materials used in their production.

A host of applications...

from raw material producers to processors in the field of food packaging, through to applications such as filtration, flavouring and additives in the food & beverage segment, there are many sectors that require the use of machinery and components compliant with Regulation (EC) No 1935/2004 (FCM).

The pumps comply with Regulation (EC) No 1935/2004 (FCM)

Blackline M Series
Mechanical Diaphragm Pump

Blackline H Series
Mechanical Piston or Diaphragm Pump

Blackline R Series
Piston Pump

Topline L Series
API675
Piston Pump
